# Web Developers Conference

October 27th 2010

UWE Conference Centre, Bristol, UK

**Sponsorship Pack**

# What is WDC?

WDC started back in 2007 and is now one of the biggest web events in Bristol. It is forever expanding it's reach with people travel from across the country to attend WDC2009.

In 2010 we're going to be bigger and better than ever.

In previous years, we have been at the Watershed. This year, we've moved up to the UWE Conference Centre.

Unlike other events we have a slightly different audience...

# Students!

Yes, we welcome professionals. Unlike other events, WDC tailors its talks and panels towards students and helps them understand what's going on in the professional web industry today and tomorrow.

Our speakers keep in mind what students are learning and practicing in their degrees when creating their talks, to provide the students with something to engage with and take back to the classroom.

By getting both a large number of students and professionals, WDC bridges the gap between student and professional life by providing a crucial networking opportunity that can lead to placement or graduate employment.
